The screenshot shows a web browser window for 'FahrFlex - Home' at the URL <https://fahrflex.de/notloggedin/popup>. The page has a green header bar with the 'Fahrflex' logo. In the top right corner, there is a 'Profile' dropdown menu with options: 'Home', 'AI recommendations', 'Support', 'Profile', and a three-line menu icon. A large, semi-transparent light-green overlay covers most of the page content. On the right side of this overlay, there is a 'Settings' sidebar with the following options: 'You're not signed in' (with a dropdown menu set to 'Log-in / Sign-up Page'), 'Language' (set to 'English'), and a 'Enable Notifications' toggle switch. In the center of the main content area, there is a button with a right-pointing arrow and the text 'Go to Login/ Sign-up Page!'. The overall layout is clean and modern, typical of a user interface for a car sharing service.

The screenshot shows the bottom section of the FahrFlex website. It features the 'Fahrflex' logo with the tagline 'Rent. Share. Drive.' on the left. To the right, there are four columns of links: 'Company' (About Us, Reviews, Contact Us), 'Quick Link' (Imprint, Privacy Policy), and 'Subscribe to newsletter' (a form field with a submit button). At the very bottom, there is a horizontal line with three social media icons: a 'G' for Google+, a 'f' for Facebook, and an 'apple' for Apple.

Alex W.

"Used it for a few airport runs and the experience has been consistently solid. Pickups were fast, drivers were polite, and the in-app fare breakdown is clear. I especially like the "share trip status" feature for late rides."

16.12.2025

Alice M.

"Convenient overall, but a bit inconsistent depending on time and area. My food order arrived warm, but later than the ETA and the driver updates stopped for a while. Support did credit part of the delivery fee, which helped."

6.12.2025

Sam A.

"Tried the short-term car rental option for a weekend errand marathon and it was surprisingly easy. Unlocking and starting the car from the app worked without issues, and the vehicle was clean. Pricing felt fair for a few hours. The only annoyance was 

07.10.2025

Dina A.

"The app is simple to use and I like the route preview before confirming. However, the price can swing a lot with demand, and it's not always obvious why. One ride also rerouted oddly and added time. It's fine in a pinch, but I double-check the fare estimate now."

05.11.2025

Tim K.

"This has become my default for rides, quick rentals, and the occasional late-night delivery. ETAs are accurate, drivers have been professional, and the "saved places" feature makes repeat trips effortless. I've also had good luck with customer support."

6.12.2025

Max V.

"The interface is good, but the service quality hasn't matched it for me. I had two rides where a driver accepted, didn't move, and then I got hit with a cancellation fee after waiting. The help flow felt automated and slow to respond."

06.11.2025

Bill G.

"Overall very reliable and the driver quality has been better than I expected. I like seeing the driver rating, car details, and an updated arrival time. Prices are usually fair, and the receipt is detailed enough for expense reports."

05.11.2025

Manisha S.

"I couldn't complete a ride request without the app glitching. It kept looping on verification and then threw a payment error even though my card works elsewhere. Support replies were generic and didn't solve it."

"Very reliable platform. The driver arrived on time, the car was clean, and the trip felt safe and well organized. I also like how easy it is to see verified profiles and ratings before booking."

"I've used Fahrflex multiple times now and it's consistently good. I like the mix of options (ride-sharing and rentals), plus the filters make it easy to find what fits my schedule. Overall, very trustworthy service."

 Can't create a Booking

 I tried to book a ride from Ulm to Stuttgart for 18.12.2025 at 07:30. After clicking "Confirm booking," the app showed "Processing" and then returned to the ride page. The booking does not appear under "My bookings," but I received an in-app notification that it was being processed.

 Missing Payments

 I'm a passenger and I'm still waiting for a refund after a cancelled ride. The ride was cancelled on 14.12.2025, and the app showed that a refund would be issued, but I have not received it yet in my payment method.

Alex W. 
"Used it for a few airport runs and the experience has been consistently solid. Pickups were fast, drivers were polite, and the in-app fare breakdown is clear. I especially like the "share trip status" feature for late rides."
16.12.2025

Alice M. 
"Convenient overall, but a bit inconsistent depending on time and area. My food order arrived warm, but later than the ETA and the driver updates stopped for a while. Support did credit part of the delivery fee, which helped."
6.12.2025

Sam A. 
"Tried the short-term car rental option for a weekend errand marathon and it was surprisingly easy. Unlocking and starting the car from the app worked without issues, and the vehicle was clean. Pricing felt fair for a few hours. The only annoyance was documentation."
07.10.2025

Dina A. 
"The app is simple to use and I like the route preview before confirming. However, the price can swing a lot with demand, and it's not always obvious why. One ride also rerouted oddly and added time. It's fine in a pinch, but I double-check the fare estimate now."
05.11.2025

Tim K. 
"This has become my default for rides, quick rentals, and the occasional late-night delivery. ETAs are accurate, drivers have been professional, and the "saved places" feature makes repeat trips effortless. I've also had good luck with customer support."
6.12.2025

Max V. 
"The interface is good, but the service quality hasn't matched it for me. I had two rides where a driver accepted, didn't move, and then I got hit with a cancellation fee after waiting. The help flow felt automated and slow to respond."
06.11.2025

Bill G. 
"Overall very reliable and the driver quality has been better than I expected. I like seeing the driver rating, car details, and an updated arrival time. Prices are usually fair, and the receipt is detailed enough for expense reports."
05.11.2025

Manisha S. 
"I couldn't complete a ride request without the app glitching. It kept looping on verification and then threw a payment error even though my card works elsewhere. Support replies were generic and didn't solve it."

"Very reliable platform. The driver arrived on time, the car was clean, and the trip felt safe and well organized. I also like how easy it is to see verified profiles and ratings before booking."

Why am I stopping in this City?

I have added Augsburg as a quick intermediate stop to drop off a pre-booked item near the central station. This will only add 15 minutes to our total trip time. If you'd like to stretch your legs and quickly check out the Augsburger Rathaus (which is directly visible from the stop), you're very welcome to join me!

Your Trip Story Driver Review

Trip was fantastic ★★★★☆

Ozan Aksu

Description: Our 10-day trip through Peru with Adventure Travels exceeded all expectations! Our guide, Elena, was incredible – knowledgeable, funny, and brought history to life, ensuring we felt like locals, not tourists, especially finding hidden gem food spots in Lima. The itinerary was perfectly paced, blending iconic sites like Machu Picchu with unique Amazon wildlife spotting and relaxing in Cusco. Accommodation was fantastic, and the seamless logistics, from flights to transfers, meant we just enjoyed the adventure. Highly recommend for a hassle-free, enriching journey!".

Drive Smoothly: Anticipate traffic to avoid hard braking; coasting in gear maximizes energy recovery (regenerative braking in EVs or fuel cut-off in combustion cars).

Maintain Speed: Use cruise control on the highway to hold a steady speed, as consumption rises sharply above 80 { km/h}.
